It gives me immense pleasure that the Internal Quality Assurance Cell (IQAC) of our college is going to publish a research book entitled 'Periodical' which will contain Research Paper, Articles on Arts, Humanities, Management and Social Science. I believe this publication will stimulate the scholars, students, teachers of our country to get involved in the meaningful academic exercise and bringing new ideas in different realms for the all round development of our society.

I wish this publication will ensure a true academic exercise to help all those involved to seek meaningful and path breaking conclusions.
